WHISKEY-3 PRO CHASSIS

MADE IN
USA

Introducing the Whiskey-3 Pro, our flagship chassis system. Combining elements of the Whiskey-3 and C-4 chassis into one system with the features many have been asking for. The new monolithic aluminum front end combines our traditional backbone with an extended forend featuring an integrated ARCA rail and M-Lok mounting points at the 3, 6, & 9 o'clock positions. The back end features an all new cheekpiece with more adjustment points and a redesigned buttpad mounting plate for a tighter lockup. The folding version can be configured to fold to the left or the right.

Whiskey-3 Shroud available

Tool-less length of pull,
buttpad height
and cant adjustment

Tool-less reversible cheekpiece height adjustment
Lateral and longitudinal cheekpiece positioning

Monolithic aluminum frontend
CNC Radius action bedding plus free floated barrel

KRG recoil pad
light, durable,
and comfortable
to shoot

Reversible
folding hinge

Quick interchangeable
grip size panels

Polymer mag well/barrier stop M-LOK compatible

Integral ARCA Rail

Weight: 3.85lbs fixed; 4.1 lbs folding
Color: Black

Available in **fixed and folding stock versions** for the following rifles:

Remington 700 Short and Long Action (and Left Handed SA Chassis)

Tikka T3/T3x/CTR (Short Action calibers only)

WHISKEY-3 CHASSIS

MADE IN
USA

The Whiskey-3 is our premier chassis available for your bolt action precision rifle. It combines precise aluminum bedding with tool-less adjustments, durability, and superior ergonomics. Numerous types of accessories are available and can be added to attachment points along the chassis, including barrier stops, sling mounts, weights, rails, and many more.

Tool-less length of pull,
buttpad height
and cant adjustment

Tool-less reversible cheekpiece height adjustment

Lateral and longitudinal cheekpiece positioning

Full length aluminum backbone
CNC Radius action bedding plus free floated barrel

KRG recoil pad
light, durable,
and comfortable
to shoot

Reversible
folding hinge

Quick interchangeable
grip size panels

Weight: 3.75 lbs fixed; 4.05 lbs folding
Color: Black, FDE, Sako Green, Stealth Grey

Available in **fixed and folding stock versions** for the following rifles:

Remington 700 Short and Long Action (and Left Handed SA Chassis)

Howa 1500 short action

Tikka T3/T3x/CTR short action calibers (using AICS mags only)

Tikka CTR short action calibers (using CTR mags only)

X-RAY CHASSIS

The X-Ray offers unprecedented value with its light weight, competitive price, and nearly identical ergonomics to the Whiskey-3. To accomplish all this we kept the features that everyone wants and needs and eliminated those that weren't necessary. The end result is a hybrid aluminum and polymer chassis that we know you'll love.

Tool-less buttpad height and cant adjustment

Tool-less cheekpiece adjustments with ambidextrous thumbscrew

Full length aluminum backbone
CNC Radius action bedding plus free floated barrel

KRG recoil pad
light, durable, and comfortable to shoot

Adjustable length of pull
includes 3 spacers and the hardware to mount either 1, 2, or 3 allowing a max LOP of about 14" more spacers available for longer LOP

Quick interchangeable grip size panels

Weight: 3lbs
Color: Black, FDE, Sako Green, Stealth Grey

It is available for the following rifles:

Remington 700 Short and Long Action (and Left Handed SA Chassis)

Howa 1500 short action

Tikka T3/T3x/CTR short action calibers (using AICS mags only)

Rimfire: Tikka T1x and CZ-457

Tikka CTR short action calibers (using CTR mags only)

BRAVO CHASSIS

MADE IN
USA

The Bravo provides you with the essential benefits of a chassis combined with conventional target/varmint stock ergonomics all at a modest price. Featuring the adjustments you need to fit your frame and plenty of modularity for future upgrades, the Bravo is a home run for the beginner or the hardcore enthusiast alike!

LOP = 12 7/8" – 14"
or up to 15 1/8"
with 6 spacers

KRG recoil pad
light, durable,
and comfortable
to shoot

It is available for the following rifles:

Remington 700 Short and Long Action (and Left Handed SA Chassis)

Ruger American and Savage SA
Rimfire: Tikka T1x and CZ-457

ECHO CHASSIS for TIKKA T3/T3x

You asked and we listened – KRG proudly introduces the Echo, our first chassis specifically developed to be compatible with Tikka T3 in both short and long action chamberings. The Echo maintains the superior ergonomics of our popular Bravo chassis in a streamlined, carbon-fiber reinforced polymer unibody. The refined design is lightweight, has fewer parts, and accommodates both short and long action cartridges, making it ideal for long range hunting and general-purpose use. So, whether you're looking to bring our exceptional ergonomics to your factory Tikka, or you just want a solid platform on your next hunt, the KRG Echo chassis will deliver the superior performance you've come to expect from KRG.

Available for the following rifles:

Tikka T3x Short and Long Action

Price: \$299
Weight: 2.65lb
Color: Black, Carbon Forest

10/22 BRAVO CHASSIS

MADE IN
USA

Designed to fit your favorite Ruger 10/22 for that dream build you've always wanted. Featuring the same great ergos as the standard Bravo but with a slightly shorter minimal LOP (~11.25") for shooters of all sizes. For those of you over thinkers out there, don't worry, the cheek piece position is still the same as our standard Bravo.

Adjustable tool-less cheekpiece

Full length aluminum backbone
CNC Radius action bedding plus free floated barrel

11 1/4" minimum LOP

Built in barrier stop

M-LOK compatible

Adjustable length of pull

includes 3 spacers and the hardware to mount either 1, 2, or 3 allowing a max LOP of about 14" more spacers available for longer LOP

Integrated butthook with cover
continuous angled lower surface or a "butthook" configuration

Weight: 2.4 lbs

Color: Black, FDE, Stealth Grey, Crimson Red

It is available for the following rifles:

Ruger 10/22
