

ECHO CHASSIS for TIKKA T3/T3x

NEW
from
KRG

**MADE IN
USA**

You asked and we listened – KRG proudly introduces the Echo, our first chassis specifically developed to be compatible with Tikka T3 in both short and long action chamberings. The Echo maintains the superior ergonomics of our popular Bravo chassis in a streamlined reinforced polymer unibody. The refined design is lightweight, has fewer parts, and accommodates both short and long action cartridges, making it ideal for long range hunting and general-purpose use. So, whether you're looking to bring our exceptional ergonomics to your factory Tikka, or you just want a solid platform on your next hunt, the KRG Echo chassis will deliver the superior performance you've come to expect from KRG.

It is available for the following rifles:

Tikka T3x Short and Long Action
